

We've Got A Plan

Our focus is not only on providing an aesthetically beautiful and technically smooth app for your business; we take it a step further by integrating our team's extensive knowledge of marketing, user experience, and revenue growth into every aspect of our apps. That means our apps are literally designed to make you money and help grow your business.

Top Notch Tech

Our talented team of in-house programmers are the cream of the crop. Known for never backing down from a challenge, our programmers work tirelessly to make some of the newest, most innovative tech ideas a reality - and YOU reap the benefits!

They've also created an incredibly intuitive, easy-to-use, and frustration-free back end for you to manage your apps without the hassle of a middle man.

Industries We Service

Mobile Apps Made
For Your Business

Mobile apps for Restaurants, Real Estate, Churches, Golf Courses, Cities, and more. Our custom mobile app is the best tool for increasing loyalty and communication with your existing and future customer base.

Get Started Today

Made Just For You

We know you've worked hard to build your brand and set yourself apart in your industry, so why should your app look just like everyone else's? Our team of talented designers have put together a seemingly endless series of visually stunning, one-of-a-kind templates available for your app.

We're not exaggerating when we say there's something for everyone, which means you'll be able to provide one consistent look and feel throughout all your marketing channels. We'll even integrate your logo to provide a unique customized look.

Smart App Features

Geo-Push Notifications: Automatically send push notifications when customers enter or exit a specific location; automatic marketing at it's finest!

Coupons: Create coupons that are automatically delivered to customers based on parameters you set.

Directories: Give your customers easy, streamlined access to the information they need - perfect for people on-the-go.

Extra Pages: We've included a WYSIWYG (What You See Is What You Get) editor to give you complete control over how your page looks.

Social Media: Link your business's Facebook and Twitter accounts, giving your customers one-click access to your social media pages.

Image Gallery: Showcase your business, as well as previous events and promotions, with a gallery of images.

Your Business Benefits

Increase Customer Loyalty

Build your customer base and provide an interactive experience, all while increasing customer loyalty.

Start Communicating With Your Customers

Instantly share important information, like specials or last-minute offers, with the people who need to know. With a 97% read rate, it's the quickest and most effective way to communicate with your customers.

Save Time and Money

GPS coupons/QR coupons eliminate costs associated with hard copy coupons, allowing you to spend less time and money on your marketing.

Automate Your Marketing

Your app will feed ALL your social marketing channels like Facebook, Twitter, and YouTube, keeping your marketing consistent and automated.

TargetMedia Mobile Apps offers the most robust product available in the market today. Our cost effective platform will deliver the perfect mobile platform to meet any clients' needs.
